Information Security Assessment

2021 Internal Information Security Audit Report

Executive Partner Summary

Date: 2021-11-16

Performed by: **WIRED Security Incorporated**

DriveSavers Data Recovery Inc. engaged **Wired Security Incorporated** to provide an independent information security assessment including a penetration security test. The scope of this engagement included gathering information and reporting the findings based on network-based scanning, vulnerability testing and insight provided by *DriveSavers Data Recovery Inc.*

Security best practices were used to conduct the audit, and to measure the effectiveness of the current *DriveSavers Data Recovery Inc.* information security program and technology infrastructure. Performing the security assessment, the team scans the organization's computer systems and network to identify potential vulnerabilities. All findings are recorded for further analysis and triage.

The security assessment & audit team deployed automated tools to determine security control gaps. Manual verification was performed to eliminate false positives, expanding the testing scope where required, and discovery/documentation of the information flow in and out of the computing environment.

Approach
- Perform broad security testing identify potential areas of exposure
- Perform targeted security testing and manual investigation to validate vulnerabilities
- Identify and validate vulnerabilities
- Rank vulnerabilities based on threat level, loss potential, and likelihood of exploitation
- Develop long-term recommendations to enhance security
- Transfer knowledge

Executive Summary Conclusion

The *DriveSavers Data Recovery Inc.'s* computing environment and the servers hosted there (as included in the scope section), demonstrated throughout our security audit and penetration testing, to provide adequate defense against cyber threats and provides reasonable protection for the information and data that is hosted.

Wired Security Inc. endorses that the *DriveSavers Data Recovery Inc*. computing environment provides reasonable assurance for data protection.
